

**REMARKS**

Applicant has amended the specification to update the status of the parent applications.

The rejection of claims 18-39 under the judicially created doctrine of double patenting over claims 1-23 of U.S. Patent 6,183,782 has been carefully considered. However, Applicant timely submits herewith a Terminal Disclaimer in compliance with 37 CFR 1.321(c) and payment of the required fee thereby obviating any obviousness type double patenting rejection.

In view of the above comments and further amendments to the specification, favorable reconsideration and allowance of all of the claims now present in the application are most respectfully requested.

Respectfully submitted,  
BACON & THOMAS, PLLC
